# Sealed Proposals.

MINE WORK.—THE UNDERSIGNED company invites bids for sinking their double shaft, now 900 feet down, yet another hundred feet, etc. The company cannot conveniently do this work themselves, as in the past, because it would interfere with their regular business of twenty years standing. The company can furnish compressed air for the drills, and do the necessary hoisting and pumping. Drills and dynamito can also be furnished, but at the expense of the contractor. The work is in schist-rock, not difficult to remove, but needs not timbering. Accommodations are at hand, and living is cheap. Liberal terms will be given. Capital is not necessary, but practical miners of some experience, or otherwise any contractor of standing. Mineral is 56 miles north of Richtond, on the Chesapeake and Ohio.
